

C V

Peter Francis Field Alexander

Background

CBS Laboratory training included Remote Sensing with Infa-Red Aerial Photography. Oil Spill was responded to by request of US/Canada Coast Guards at St. Lawrence River in 1976. Delineating oil from water as with constant different temperatures became his signature inventive improvement. That led to his ability to pay is Graduate Education at RISD. 1973 to 1977 RISD intellectual direction was all ENERGY,ENERGY,ENERGY. Combination of same led to his being chosen to create Oil Spill Contingency Plan for Scotland's Islands, Danube River, New Haven Harbor as examples of combing modern technology with Environmental Protection.

Career expands all sectors of Planning from Regional Planning to Perennial Gardens at Residential Scale. The combination of experience & Love of Nature is best represented by his efforts to SALT MARSH CREATION & EXPANSION Calf Island Study in 2013. This concept has become a widely respected & demanded concept. Current project in Newport County Rhode Island combines all & will be remarkable valuable. Long Island Sound Institute combines experience to create a reliable funding source Annually into Perpetuity. Controlling cost & reliability of all efforts to honor ENERGY ENERGY ENERGY

Education

Rhode Island School of Design
Rhode Island School of Design
University of Denver

Degrees

Architectural Studies
Landscape Architecture
History Biology

Professional Accreditation

Uniform National Examination Regimen Completed
Full Member American Society of Landscape Architects
Member American Planning Association
Specific Regional Licenses

Professional Position

Founder & Principal Site Design Associates 1979 to Present

Current Government Commissions/ Positions

Golf Application Review Specialist	Kent	Connecticut
Golf Application Review Specialist	Garfield County	Colorado
Town Plan Reviewer	Aspen	Colorado
East Europe Environmental Response Team	United States Department of State	
Historic District Commission Chairman	Greenwich	Connecticut

Example Projects & Studies

Planning & Zoning Base Documentation Parks & Recreation Component
Lincoln, Mass.
Grosvenordale, Ct
Stonington Ct.
Garfield County Colorado

Playground/ Activity Planning
Shakespeare In The Park New York, New York
Bruce Park Playground Greenwich
Rifle School System Rifle, Colorado

Trail System Documentation & Planning
Montgomery Pinetum Greenwich
Steamboat Ski Company Steamboat Springs, Colorado
Placida, Florida Charlotte County, Florida

Large Scale Resort/ Recreation Planning
Olympic Training Center Lake Placid, New York
Coral Creek Club Placida, Florida
Lamington Farm Bedminster, New Jersey
Phelps Brook North Stonington, Ct.

Landscape Architecture practiced in the traditional form has provided the overall planning and design for parks throughout the history of the World. Someone had to tell Pharos where to put the Pyramids! Recent digital mapping and computer enhanced imaging has greatly advanced the practice in its ability to provide drawing and budgeting solutions rapidly. GIS databases will allow for real and fundamental input by the public to future improvements to our already wonderful natural systems.
